Wish or reality?

We need an international yoga organisation that sticks, that yog's, that reaches the millions

Every day (or almost), the co-founder of this site repeats the following bellow showing so that for the future of mankind peace an harmony installs in every heart.

'Yes' to peace, 'Yes' to harmony and 'Yes' to working together so that the true meaning of Yoga emerges to make human beings kind and compassionate.

“

*Please, if your aspire to a better world, do not search anymore where you can dedicate your wellness thoughts and actions, I emlore to continue your mission to sahre the yoga knowledge and remember there are students out there who are seaching for you. Yet, if you keep bouncing back and forth here and there, they will not find you. They need you. Please be a participant and **make the Yoga word** meaning what it is meant for: union, yoke, so that we can work together to make this world shine. Please comfort the victims so that we can all shine under the same sun in peace and harmony... everywhere.*

Then the meditation went again to add this personal note

“

I have dedicated more than ten years of my life to using information technology to bring humans from different segments of society together. My goal: to help people bridge the gap between the physical and the virtual in order to reach new heights, and to communicate better with each other. Today, it is obvious

that the world has changed and that we will not go back any time soon. The big corporations see this and communicate it to us. So that we, sometimes isolated, observe and become actors in this global phenomenon. We can't achieve something new if we aren't willing to do something we've never done before...and that translates into reaching out to others. Discovering that it is possible to bridge the virtual and the physical and using this new method of thinking is a game changer. Emerging countries have understood this. Communications between us weren't this smooth before. For example, think about how today you buy groceries, shop for furniture, use public transportation, or look for a job.

The technologists who, in a given ecosystem, used these communication methods at the very beginning of the age of computerization were able to capture most of the digital capital.

Just like me, you have noticed that it is very difficult for a second runner to get pole position. This is true on both the physical and virtual sides. The last are no longer the first. It's a sad observation and it hurts. From now on, every time a weaker person tries to cross the bridge from the physical to the virtual, we experience the same pain unless we extend our hand and work together... in the same direction.

The European Union of Yoga Organizations

member of International Yoga Federation and International Yoga Sports Federation

Founded in 1997 under the name of the European Yoga Commission, during the European Yoga Congress and International Yoga Congress of the International Yoga Federation in Genoa, Italy. Currently, with new statutes, it has become the European Union of Yoga Organizations, the largest confederation of federations, associations, unions and yoga centers in Europe.

The highest body of the European Union of Yoga Organizations is its general assembly that brings together the delegates of the member associations once a year to make the resolutions of the institution.

The General Assembly elects an Executive Committee or Executive Board that administers the European Union of Yoga Organizations.

The Governing Body, made up of delegates designated by the member associations, has the function of coordinating the directors of the UEYO in each country and the yoga events.

The Governing Body coordinates and interacts with the European Commission for Yoga Education, European Commission for Traditional Yoga, European Commission for Modern Yoga, European Commission for Professional Yoga, European Commission for the Regulation of the Yoga Teacher Profession, European Commission for Yoga Therapy, Commission European Council of Sports Yoga, and the European Yoga Council that brings together the Grand Masters of Yoga and the main Grand Masters of the different lineages, traditions, specialties and styles of yoga.

The European Union of Yoga Organizations is full member of International Yoga Federation ® and International Yoga Sports Federation ®

The European Union of Yoga Organizations has full and complete member institutions, adherent member institutions, honorary member institutions, as well as centers that can be registered, accredited, recognized or associates.

Teachers Training and Masters Yoga Training Courses:

7 systems:

International Yoga Federation - European Union of Yoga Organizations

1. Teaching Cycle

The European system has a duration of 3 years with 9 month teaching cycles, and a minimum training program. This training program was based on the National Yoga Associations, mostly European, and was created and led by

trainers who were not yoga teachers.

2. Gurukula

In India, the training system is the traditional gurukula system, which takes place in the Ashram (spiritual community), courses of a duration that can vary between one month and 12 years. In this tradition it is not so important the program, the fundamental thing is that the course is given by a real Master with experience, who dominates the samadhi and the techniques.

The supporters of this system. They argued that most of the programs were limited to the training of teachers of yoga techniques, but they did not train yogis, much less yoga teachers. The real institution in yoga is not the National Associations, but the Masters and Lineages.

3. American System

The Americans, on the other hand, put together an American system, which is neither Gurukula nor European, which is based on hours and standards. The person obtained a degree, or a specialization according to the amount of hours taken.

4. Mixed

A fourth methodology was based on 12 training modules that have theoretical, technical and practical parts with spiritual practices.

5. Continuing education

Created in the USA, based on credits or points generated by events, seminars, retreats, congresses, etc.

6. Immersion Training

Subsequently, a sixth modality of immersion training appeared, consisting of short intensive periods of approximately two weeks.

7. On Going

This training modality, currently called "on going", is based on the shared time (several years) of the disciple with his or her Yoga Master, until the latter considers that the person has mastered Yoga and has become a true Yoga Master.

The Yoga and Buddhism coming to Europe circa 326 a. C with the folk of **Alexander** the Great, son of God (Zeus -Amon) from the Achilles lineage. Greek in Indostan was buddhist. **The Greco-Bactrians** were known for their high level of Hellenistic sophistication and kept regular contact with both the Mediterranean and neighbouring India. **Indo-Greek kingdom** appeared circa 190 BCE. Greek culture. Greek culture reached Ariana and the Hindustan long before India existed. Their Yoga was known as Yavana Yoga, and the Greeks strongly developed Buddhism, creating the foundations of Buddhism, Mahayana and Tandtrayana differentiated from the original Buddhism. In Ariana (Pakistan and Afghanistan) in Kashmir, North India, Tibet, Ubekistan, and Tauiskitan, the Greeks introduced human postures, which India had never practiced, developing the asanas within Buddhism. And developing the Greek Gymnasiums as true ahsrams and viharas where postures, sports, philosophy and spirituality were practiced. The concept of the spirituality of asanas is Greek. And the concept that sports is spiritual is Greek. The Greeks taught Homer's Iliad and Odyssey, epics on which the Mahabharata were based, including the Bhagavad Gita and the Ramayana, which were written in the Greek kingdoms of Bactria and Hindustan. The Gita is based on the life of Alexander the Great and Achilles and on the Greek idea of what we know as karma yoga. We are affir that the buddhism is nothing more than the human nature.

development of ancient Hellenism or the ancient religion of the Greeks that was always tolerant and coexisted with other religions or philosophies such as Jainism or Buddhism. The Buddhism of the Greeks was nothing more than a true primordial yoga, which coexisted with the Sanmkhya and from which Patanjali was later nourished. Yoga before Alexander the Great, who was an extraordinary philosopher, a disciple of Aristotle, and after Alexander, developed in Europe under other names. The tradition of ancient and modern yoga postures are a purely European tradition that was transmitted by the Americans on their continent. In Europe, Yoga was transformed at the end of the 19th century, and in the 20th century, European yoga was born as a different yoga from India, since in Europe as in America a Yoga that was psychophysical and spiritual was proposed. Yoga was an idea in European cultures long before European bodies practised anything called yoga. Indian philosophical ideas and ascetic practices were known to the ancient Greeks, whose imperial influence stretched into what is now northwest India (ca. 300 BCE). Currently, the yoga organizations of Europe have a meeting point in the European Union of Yoga Organizations, where all forms of Yoga from ancient times and modernity coexist, without one imposing on the other, without anyone being able to say this is yoga and this is not yoga, because there is no inquisitive vision. Yoga in Europe is professional, and it has such a secular vision that it makes it impossible for it to be religious, especially Hindu because it is professional. But it is equally accepted in the European Union of Yoga Organizations, all forms of yoga, and all methods and styles. Regardless of its origin. The European Union of Yoga Organizations defends the freedom, equality and fraternity of its members and has not a unique training program.

The European Union of Yoga Organizations does not accept any authority, interference, directive, control, guide or imposition of the yoga organizations of India, much less its government, being an institution that is not influenced by political parties. On the other hand, the European Union of Yoga Organizations does not believe that Yoga was born in India, because historical documents affirm otherwise. This Europeanist vision is what makes the European Union of Yoga Organizations an independent institution not only from the institutions and gurus of India (Indian Yoga Association) but also from the Yoga Alliance of the United States and European Yoga Union at Europe.

European Union of Yoga Organizations have official relationship and And mutual recognition with the International Yoga Federation, World Yoga Council of IYF, International Yoga Therapy Association, Asian Yoga Federation, Yoga Federation of Asia, South American Yoga Federation, Francophone Yoga Federation, Latin American Yoga Union, Yoga Federation of America, International Yoga Sports Federation ®, OUM.ru Yoga Organization of the Commonwealth of Independent States, Yoga Alliance International (Europe and America), International Yoga Association, Federation of India and National Yoga Association of India.

After the invite

In August, a conversation with the past president Swami Matraiyananda was made. Then, Daniel, your humble co-creator, got in the WhatsApp group with a txt msg giving him access to the European Registry. Daniel did not think much until he got time to review the info and concluded it was legitimate. Yet, one step further was needed. His communication to Matreyananda was something like this:

“

Hello, namaste Swami Matreyananda,

This is Daniel getting back to you in regards to your invite.

First, let me thank you for the invite that I immediately accepted. It helps me making sense about my yoga which is slowly going toward making interviews in English. This opens a whole new portal of possibilities for me as I just co-founded a non-profit organisation of my own, named YogaPartout-Satoshi.Yoga. It opens up the possibility to have you on my podcast as I would like to interview you and the new president. The world of yoga needs to know about the massive contribution you made to the promotion of health and welfare. You visited so many countries, meeting so many yoga centers, in English, in Spanish, in French and many other languages and cultures. Please make sure to add my name to your official registry as I would like to invite you to become a member of this non profit I launched in may 2023 and we need to interconnect as many yoga spaces/centers as we can. I have the perfect technology to bring up to the general public these yoga spaces you maintain which, incidently, need the integration that many including myself observed. Would you be willing to recommend me someone who is willing to represent the European Union of Yoga Organisations? Their is a wallet implication involed as you could expect, the work to unify your web spaces into one harmonious and homogeneous entity is a massive endeavour and I know I can do it.

Here is my whatsapp QR code to reach me to further discuss how we can all benefit the integration I propose.

Are you the person to whom I should address myself?

Bonjour, Namaste Swami Matreyananda,

C'est Daniel qui vous répond au sujet de votre invitation.

Tout d'abord, permettez-moi de vous remercier pour l'invitation que j'ai immédiatement acceptée. Cela m'aide à « donner du sens » à mon yoga qui s'oriente petit à petit vers la réalisation d'interviews en anglais. Cela m'ouvre un tout nouveau portail de possibilités puisque je viens de co-fonder une de mes organisations à but non lucratif, nommée YogaPartout-Satoshi.Yoga. Cela ouvre la possibilité de vous avoir sur mon podcast car j'aimerais vous interviewer ainsi que le nouveau président. Le monde du yoga a besoin de connaître votre contribution massive à la promotion de la santé et du bien-être. Vous avez visité tant de pays, rencontré tant de centres de yoga, en anglais, en espagnol, en français et dans bien d'autres langues et cultures. Assurez-vous d'ajouter mon nom à votre registre officiel car je voudrais vous inviter à devenir membre de cette organisation à but non lucratif que j'ai lancée en mai 2023 et nous devons interconnecter autant d'espaces/centres de yoga que possible. Je dispose de la technologie parfaite pour faire connaître au grand public ces espaces de yoga que vous entretenez et qui, d'ailleurs, ont besoin de l'intégration que beaucoup, moi y compris, ont constatée. Seriez-vous prêt à me recommander quelqu'un disposé à représenter l'Union européenne des organisations de yoga ? Comme on peut s'y attendre, le travail pour unifier vos espaces Web en une entité harmonieuse et homogène est un effort colossal et je sais que je peux le faire.

Voici mon code QR Whatapp pour me contacter afin de discuter davantage de la manière dont nous pouvons tous bénéficier de l'intégration que je propose.

Êtes-vous la personne à qui je dois m'adresser ?

Ciao, namaste Swami Matreyananda,

Sono Daniel che ti risponde riguardo al tuo invito.

Innanzitutto vorrei ringraziarvi per l'invito che ho subito accettato. Mi aiuta a "dare un senso" al mio yoga che sta lentamente andando verso la realizzazione di interviste in inglese. Questo apre per me un portale di possibilità completamente nuovo poiché ho appena co-fondato una mia organizzazione no-profit, chiamata YogaPartout-Satoshi.Yoga. Si apre la possibilità di averti nel mio podcast perché vorrei intervistare te e il nuovo presidente. Il mondo dello yoga ha bisogno di conoscere l'enorme contributo che hai dato alla promozione della salute e del benessere. Hai visitato tanti paesi, incontrato tanti centri yoga, in inglese, in spagnolo, in francese e tante altre lingue e culture. Assicuratevi di aggiungere il mio nome al tuo registro ufficiale poiché vorrei invitarvi a diventare un membro di questa organizzazione no profit che ho lanciato nel maggio 2023 e dobbiamo interconnettere quanti più spazi/centri yoga possibile. Ho la tecnologia perfetta per portare al grande pubblico questi spazi yoga che mantieni e che, per inciso, necessitano dell'integrazione che molti, me compreso, hanno osservato. Saresti disposto a consigliarmi qualcuno disposto a rappresentare l'Unione Europea delle Organizzazioni Yoga? La loro è un'implicazione del portafoglio coinvolta come ci si potrebbe aspettare, il lavoro per unificare i vostri spazi web in un'entità armoniosa e omogenea è uno sforzo enorme e so di poterlo fare.

Ecco il mio codice QR whatsapp per contattarmi per discutere ulteriormente come possiamo tutti trarre vantaggio dall'integrazione che propongo.

Sei tu la persona a cui dovrei rivolgermi?
