

# Welcome to our "Discord" world where everything is possible

This page is a link that talks about Discord.

## What is Discord

## Servers

Servers act as organized spaces where users can create channels for various topics or activities. These servers are more like virtual communities rather than full websites.

## Text, Voice, and Video Chat

Discord excels in providing robust communication tools for real-time interaction.

## Bots and Automation

You can integrate bots to add functionality like moderation, games, polls, music playback, and more.

## Rich Media Integration

Discord supports sharing images, links, videos, and embeds (e.g., YouTube videos, Twitch streams), but it still operates within the scope of a communication platform.

## What more?

Daniel's user space was originally known as dan1am/6833

### what is said about Satoshi.Yoga on Discord

Satoshi Yoga is multilingual community

I am co-owner of this web space

I make other yoga teachers shine via my podcast show

<https://satoshi.yoga/Blockchain>

AND

We're working on launching

- <https://yogapartout.com> (launched back in 2008)

- If it isn't already done (jan 2025) <https://telepartout.org>

- <http://telepartout.com> (launched AND closed for the public) because it is limited in terms of permissions.

Note:

Other pages on the /Blockchain one are:

\* /BlockChain

\* /Blockchain (what is it) □Decentralized Autonomous Organisation□Crypto Money□Smart Contract

\* /Essence

## See this video

Staring Dany DeVito, it tells it all

## Conclusion or question

Is Discord.com main niche for Gamers? OR can it be used for Social Media Communication?

Other Social Media Communication that looks simpler, yet may be "subversive" are:

- TeleGram
- Twitter
