Like we say in English: '**Let's get it done**'

Open positions

Here are some options to explore and remember that the world wide web is a vast field of expertise and most likely, you do not have the qualifications to work for us. Except that we train our people. Our most important quality you will find at Satoshi.Yoga is patience and acceptance. The trust we build with you is the number one employment criteria you must earn from any employer who you will solicit ever AND we will recommend you to another venue after your Internship is done.

Customer Service Representative (CSR)

Even to answer an email, or two or one hundred requires experience. Here at Satoshi.Yoga, everyone does their own CSR work. If you have a personal project, that is the place where you will be able to unfold it.

Social Media (SEM)

Have a look at this plate before you think you can handle these layers of complexity. Usually, a good SEM person has completed an Engineer course at University Level
